JUNOON '23

INDIA'S FIRST SPORTS MANAGEMENT FEST

The International Institute of Sports & Management (IISM) is pleased to announce the successful conclusion of '**JUNOON'23**, India's first-ever Sports Management Festival, which was wholly organised and executed by IISM students.

This was a three-day intercollegiate sports fest in which over 100 IISM students worked relentlessly for about three months.

The students were divided into departments, and they were in charge of complete planning and execution. These departments were: social media team, the marketing team, the finance team, the public relations team, and the operations team.

The Social Media Team was in charge of handling the social media handles of JUNOON as well as creating online and offline posters and ensuring that everyone could view the live action via the stories. The marketing team secured sponsorships from big brands. These included support from the JIAU Foundation, Decathlon (the equipment partner), and MuscleBlaze (the nutrition partner).

The financial team ensured that the sponsorship funding was used appropriately and that the accounts were settled after the event. The public relations team worked with institutions to get 250 participants from 26 colleges across Mumbai. The operations team was in charge of on-the-ground activities and ensuring that everything was in place throughout the matches.

With the IPL around the corner, it only made sense to have an IPL auction on Day 1. On Days 2 and 3, football matches were organised, and the students got this excellent platform to showcase their skills.

All in all, JUNOON'23 achieved a spectacular achievement in its 5th edition.

Kudos to everyone who helped make JUNOON'23 a reality.
